

# Free Water Protection Visits for Rural Well and Septic Owners

## A certified water advisor will:

- Look at ground water flow & assess risk factors for contamination
- Check well head safety
- Provide septic safety information & tips to avoid costly repair bills
- Show you how to correctly take water samples & deliver your sample for testing
- Info on current local funding available for wells
- Answer questions and concerns
- Talk about water conservation
- Hand out a water Stewardship Kit
- Leave gift as a thank you for participation

This initiative is funded by: **The Ontario Ministry of the Environment and the County of Bruce**

**PROUDLY OFFERED BY:** The Elora Centre for Environmental Excellence, Green Communities Canada, and the Ontario Ground Water Association

\*A limited number of bookings being offered  
**FIRST COME, FIRST SERVED**

**“BE WELL AWARE”**

Ontario

This service is offered to rural homeowners at no cost and no product or services are being marketed or sold.

**Date:** Spring, Summer, Fall 2009

**Time:** At your convenience

**Where:** Your rural home

**This program offers free, confidential information and education.**

*As rural citizens, we have a right to expect clean drinking water and a responsibility to help preserve it.*
