John Street Tara Construction 2018

The Municipality of Arran-Elderslie Water & Sewer Department along with the Works Department are beginning construction on John Street in Tara.

The project has begun (late June) and underground work is projected to conclude around July 6th, and asphalt installation will come later in the summer. The work includes minor water main work, storm water work, curb and sidewalk, as well as asphalt installation.

Please be advised that construction in the area could provide inconveniences such as heavy equipment traveling the local streets, reduced accessibility on the street, dust issues, and disruptions in the water service.

Municipal staff will make every effort to advise the residents of disruptions to their services, however there may be isolated instances where this may not be possible.

It is advised that you check your water daily prior to usage. Should you find any discolouration run cold water until the issue is resolved. Please check water prior to doing laundry.

We thank you for your patience and cooperation during these projects. Should you have any concerns or questions please feel free to contact:

Water and Sewer Foreman
Mark O'Leary
